

# Transmission Line Assemblies

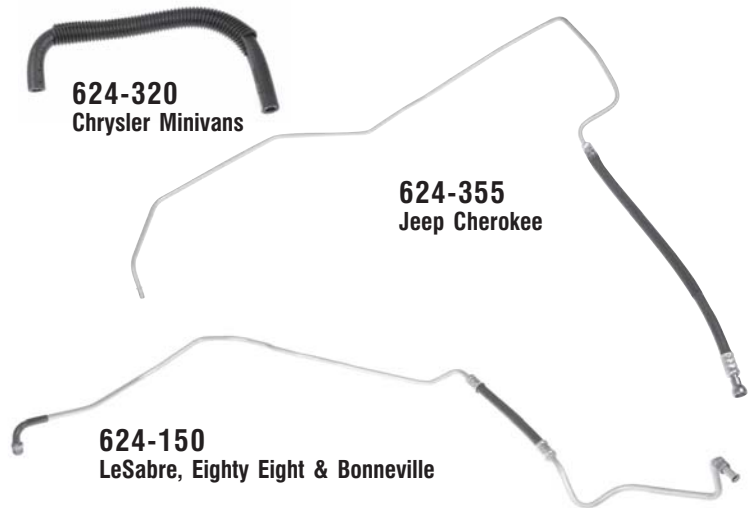

*A little leak could mean big problems down the road.  
Replace transmission lines at the first sign of failure.*

• **191 SKUs—the coverage you need**

## Typical Failures

- Combination steel and rubber lines fail at the crimps due to compression set
- Steel lines corrode at connections
- Rubber lines dry-rot and crack
- If not replaced leaking lines can cause costly transmission damage

**624-320**  
Chrysler Minivans

**624-355**  
Jeep Cherokee

**624-150**  
LeSabre, Eighty Eight & Bonneville

**Dorman® OE Solutions™**  
**Transmission Lines**  
**feature:**

- Exact OE Replacement
- Quality construction to prevent comebacks

**Transmission Lines should be checked for leaks at every service.**
